

Kathy Mullen

Spirited ~ Change Maker ~ Servant Leader

Kathy Mullen is an angel mom, music lover, adventure seeker focusing on healthy, joyful living, and the founder and executive director of a nonprofit organization, Mullen's Miracles. Ms. Mullen had a successful career when her life was turned upside down by a rapid succession of tragic losses. This series of life-altering events led Kathy to her calling. After 35 years in the technology sector, Kathy created Mullen's Miracles, a nonprofit that offers relief and recovery strategies to those considering suicide or in crisis. She started Mullen's Miracles in honor of her son Eric, whom she lost to suicide on October 2, 2018.

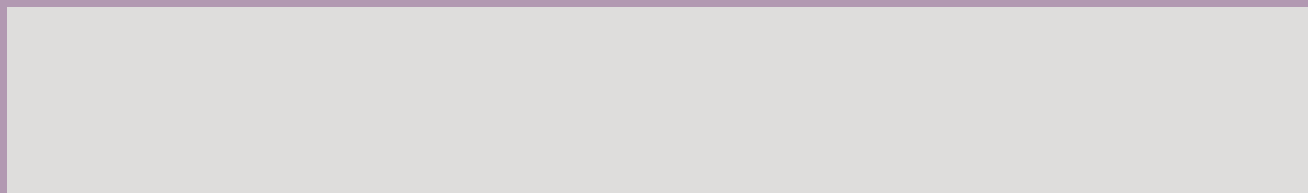

Mullen's Miracles provides individualized options, respective support systems and support provisions to those on the edge, those assisting others in crisis, and for those that have lost a loved one to suicide. The organization fills a gap that Kathy and Eric experienced personally when seeking help during a critical time - a lack of individualized available resources that they desperately needed, quickly. The goal of Mullen's Miracles is to compile useful and easily accessible resources, so that anyone in

crisis can find the tools and support they need to cope in their time of need. Kathy works to ensure fewer families and friends have to face a life shattered by the impacts of suicide and is committed to nourishing the needs of those in crisis and changing the stigma associated with mental illness.

Kathy's story and experiences levy her credentials to speak on topics such as:
